

Special Issue

Dynamical Systems and Their Applications Methods, 2nd Edition

Message from the Guest Editor

In recent decades, non-linear phenomena have garnered the attention of researchers across many scientific fields. Simultaneously, the development of technological devices and advanced theories have resulted in new scientific findings in the area of dynamical systems, which in turn have opened novel perspectives in science and engineering fields. This Special Issue, 'Dynamical Systems and Their Applications: Second Edition' invites submissions of original research and survey articles that underscore the recent and novel developments in the theory of dynamical systems and their applications, particularly focusing on analytical, numerical, and experimental results showing non-linear phenomena with regular and irregular patterns.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
