Special Issue

Recent Advances in Theory and Application of Dynamical Systems

Message from the Guest Editor

Using functional analysis, topological and algebraic approach to study dynamic systems has become more and more important in the dynamic systems theory and has drew a great interest to many researchers recently. On the other hand, modeling with dynamic systems have been widely used to describe the dynamical behaviors in almost all areas of science and engineering. This Special Issue invites papers on innovative proposals of theory and application of dynamical systems. This proposal aims to publish results of recent developments in Dynamical Systems, and new applications to engineering, physics, medicine, and economics. Potential topics include but are not limited to:

- New theories in dynamic systems;
- Qualitative behaviors of dynamic systems;
- Dynamics properties include stability, bifurcation, and chaos;
- Numerical methods for dynamic systems;
- Simulation analytics in dynamic systems;
- New modeling and technology for dynamic systems in science and engineering.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
