

Special Issue

Summability and Convergence Methods

Message from the Guest Editors

This Special Issue focuses on novel and original results related to summability and convergence methods such as Cesàro summability, statistical convergence, lacunary summability and matrix methods. Papers that address recent developments in Boolean and effect algebras are also welcome. The aim of this Special Issue is to present recent developments in summability and convergence methods, including, but not limited to, the following:

- Multiplier Convergent Series
- Statistical convergence
- Cesàro summability and convergence
- Lacunary convergence
- Boolean and Effect algebras
- Abelian theorems
- Tauberian theorems

The framework employed typically encompasses Banach spaces but can be as general as topological groups or specialization in finite dimensional normed spaces.

Guest Editors

Prof. Dr. Francisco Javier Pérez Fernández

Dr. María C. Listán-García

Prof. Dr. Soledad Moreno-Pulido

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
