# Special Issue

# Recent Advances in Dynamic Equations on Time Scales

### Message from the Guest Editor

Due to your expertise in the area, we would like to invite you to submit a manuscript for this Special Issue on time scales calculus. Topics might include (but are not limited to) surveys of time scale calculus theory, Sturm–Liouville problems, special functions, control theory, fractional calculus, conformable calculus, control theory, partial dynamic equations, difference equations, q-calculus, population models, and integral transforms. We look forward to your contribution.

# About the Journal

### Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

### Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

### Author Benefits

**High Visibility:**
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

**Journal Rank:**
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics )

**Rapid Publication:**
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
