Special Issue

Geometry, Topology, Manifolds and Their Applications

Message from the Guest Editors

This Special Issue aims to provide a platform for scholars to present their latest discoveries, explore emerging themes, tackle overlooked challenges, propose novel methodologies, and exchange diverse perspectives. Our goal is to inspire fresh research directions and foster meaningful collaborations. Topics of interest include, but are not limited to, Riemannian Geometry, Complex Geometry, Finsler Geometry, p-Harmonic Maps, Minimal Varieties, Gauge Theory, Curvature and Topology, Transformation Groups, Geometric Analysis, Several Complex Variables, Algebraic Geometry, Geometric Function Theory, Nonlinear Potential Theory, Geometric Measure Theory, Calculus of Variations, Geometric Flows, Data Manifolds, Topological Data Analysis, and their interrelations. We invite researchers specializing in these fields to submit their work. Submissions, accepted on a rolling basis, will undergo rigorous peer review to ensure the highest standards of quality and relevance. We look forward to your contributions to advance this vibrant area of research together.

Guest Editors

Prof. Dr. Shihshu Walter Wei

Department of Mathematics, The University of Oklahoma, Norman, OK 73069, USA

Prof. Dr. En-Bing Lin

School of Computing and Data Science, Wentworth Institute of Technology, Boston, MA 02132, USA

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:
JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
