

Special Issue

Advances of Intelligent Systems and Computing

Message from the Guest Editor

For this Special Issue, we are seeking papers on modern intelligent systems and computing, which may cover but are not limited to the following areas: computational intelligence, soft computing (including neural networks, fuzzy systems, evolutionary computing and the integration of these paradigms), social intelligence, environmental intelligence, artificial life, virtual world and society, cognitive science and systems, perception and vision, DNA and immune based systems, self-organizing and adaptive systems, E-learning and teaching, people-centered computing, recommendation system, intelligent control, robotics, man-machine team, knowledge-based paradigm, learning paradigm, intelligent data analysis, knowledge management, intelligent agent, intelligent decision-making and support, intelligent network security, trust management, interactive entertainment, network intelligence and multimedia.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
