Group Theory and Related Topics

Message from the Guest Editors

Group theory has become one of the core disciplines of algebra, and many algebraic structures can be regarded as “groups with an additional structure.” Since the generalisation of the use of computers, algorithmic methods in group theory have been an active source of research, and computer algebra systems have become fundamental tools for current research on groups, especially in the finite case. The fact that some groups act on other geometric or algebraic structures has been crucial to finding new applications of group theory, not only to algebra but also to fields related to geometry, topology, physics, and chemistry. This aim of this Special Issue of Mathematics is to show recent results on group theory and other related topics. We cordially invite you to present your recent contributions to this Special Issue.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University,
The Gateway, Leicester LE1 9BH, UK

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank:

JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
