

Special Issue

Mathematics in Biomedicine, 2nd Edition

Message from the Guest Editors

The field of biomathematics includes a broad range of scales and levels of biological organization. The main goal of this Special Issue is to celebrate the huge increase in and relevance of applications of mathematics to biology and life sciences. Editors will accept high-quality papers with original research in all fields of applications of mathematics to biology and medicine.

About the Journal

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Editor-in-Chief
