Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editors

This Special Issue (SI) is dedicated to exploring the latest breakthroughs, innovative technologies, and emerging paradigms in coronary artery disease (CAD) screening and risk assessment. Our aim is to provide a comprehensive platform for researchers, clinicians, and healthcare professionals to disseminate their research findings, share clinical experiences, and contribute to the ongoing dialogue on CAD prevention.

The articles featured in this SI will span a wide spectrum of topics related to CAD screening, encompassing novel imaging modalities, risk prediction models, biomarkers, and lifestyle interventions. We invite authors to submit their original research, reviews, and clinical studies that delve into the intricacies of CAD screening.

We are excited to bring together a diverse range of contributions that will illuminate the ever-evolving landscape of CAD screening, offering fresh insights and evidence-based strategies to enhance cardiovascular health. By fostering collaboration and knowledge exchange, we aspire to catalyze improvements in CAD prevention and, ultimately, reduce the burden of this pervasive cardiovascular condition on global health.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), and [other databases](#).

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
