Message from the Guest Editors

In this Special Issue of *Medicina*, we aim to publish articles on clinical applications of modern technologies in neurosurgery and spine surgery in as broad a context as possible to provide the readers with a comprehensive overview of the latest developments.

Clinical, neuroradiological, as well as experimental, basic science research, in respect of clinical applications of modern technologies in neurosurgery and spine surgery, is welcome. Papers on preoperative imaging, new and innovative surgical approaches and techniques, as well as application of various novel technologies, devices, as well as surgical concepts are of interest.

Case reports, retrospective and prospective case series and studies, operative videos, technical notes, literature reviews, opinions, and clinical and basic science research are all welcome.

Deadline for manuscript
submissions:

31 August 2024
