Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Medicina*, entitled "*Management of Septic Shock in ICU*", aims to provide a comprehensive exploration to address one of the most critical challenges in intensive care. Emphasizing early detection, we aim to publish research underscoring the importance of using advanced monitoring techniques for the timely identification of septic shock.

Two central themes of this publication will include antibiotic stewardship and the judicious use of antimicrobials in the face of rising antimicrobial resistance. This Issue will delve into evolving fluid resuscitation strategies and the integration of emerging technologies, showcasing the dynamic nature of septic shock management.

By encapsulating key elements such as early diagnosis, antibiotic stewardship, fluid resuscitation, , and interdisciplinary collaboration, this Issue offers to equip practitioners with a holistic perspective on managing septic shock in an ICU setting.

Authors are welcome to submit research papers, short reports, reviews, systematic reviews, meta-analyses, letters to the editor, and commentary papers.

Dr. Nicoleta Alice Dragoescu

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), and [other databases](#).

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
