Current and Future Applications of Ultrasound Imaging in Peripheral Nerve and Muscle Disorders

Message from the Guest Editors

Ultrasound is a fast, comfortable, and widely available diagnostic tool that provides additional morphological information about the peripheral nerves and muscles. It is growing in importance in the field of neuromuscular diseases, and therefore, *Medicina* is launching this Special Issue. We encourage you and your co-workers to submit your articles reporting on this topic. Reviews or original articles dealing with the clinical use of neuromuscular ultrasound are welcome in particular. In addition, we warmly invite you to submit articles reporting evidence and expectations from innovative ultrasound techniques.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
