Retinal and Choroidal Vascular Disease

Message from the Guest Editors

Retinal vascular diseases and choroidal vascular diseases are among the most important eye diseases. Among the vascular diseases of the retina, diabetic retinopathy and retinal vein occlusions are the two most relevant pathologies in terms of incidence and severity. In fact, diabetic retinopathy is the leading cause of blindness in individuals of working age in industrialized countries. Among the vascular diseases of the choroid, the two most important pathologies are wet age-related macular degeneration and central serous chorioretinopathy. Age-related macular degeneration is the leading cause of blindness in individuals over 65. Central serous chorioretinopathy is the 4th cause of maculopathy after diabetic macular edema, macular edema associated with vascular occlusion and age-related macular degeneration. This Special Issue aims to allow the spread of works concerning the important ocular pathologies in terms of incidence and severity. We invite experts to contribute with their research, whether basic or clinical, on retinal and choroidal vascular disease, to this Special Issue. Authors can also submit review articles describing the evolution of scientific discoveries.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
