Erectile Dysfunction and Sexual Health: Current Trends in Evaluation and Treatment

Message from the Guest Editors

Erectile dysfunction and sexual health are fundamental aspects of men's overall well-being, yet they remain underdiagnosed and undertreated concerns. This Special Issue aims to provide a comprehensive and up-to-date overview of current concepts, diagnostic tools, and treatment strategies in erectile dysfunction and male sexual health. The scope also includes research on ejaculatory and orgasmic disorders, penile rehabilitation, and the sexual health of men undergoing cancer treatment or gender-affirming care. We particularly encourage submissions that highlight novel and cutting-edge approaches, such as regenerative medicine, stem cell therapy, low-intensity shockwave therapy, penile implants, neuroimaging, wearable technology, telemedicine applications, and sexual counseling models. We invite urologists, andrologists, endocrinologists, sexologists, psychologists, and researchers from related disciplines to contribute high-quality manuscripts that will enrich our understanding and improve patient care in this essential domain of health.

Guest Editors

Dr. Bogdan Petrut

Dr. Bogdan Ovidiu Feciche

Prof. Dr. Nicolae Crisan

Dr. Daniel Porav-Hodade

Deadline for manuscript submissions

30 November 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
