

Special Issue

Early Detection and Clinical Treatment of Acute Kidney Injury

Message from the Guest Editor

Acute kidney injury resulting from poisoning is commonly seen in daily practice, especially in those patients admitted to emergency departments and intensive care units. The goal of this Special Issue is to collate articles on the detection, treatment, and prevention of acute kidney injury resulting from poisoning. The cutting-edge research: Warning signs and treatment strategies for patients with acute kidney injury resulting from poisoning. The articles, reviews, opinions, and case reports are all welcome. Dr. Yu-Jang Su

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania
