Special Issue

Advances in Multiple Sclerosis: From Pathogenesis to Therapeutics

Message from the Guest Editors

Multiple Sclerosis (MS) is a chronic, immune-mediated disease of the central nervous system (CNS), characterized by neuroinflammation, neurodegeneration, and varying degrees of disability. This Special Issue, "Advances in Multiple Sclerosis: From Pathogenesis to Therapeutics", focuses on the rapidly evolving landscape of MS. We invite researchers with contributions exploring all aspects of MS, including novel biomarkers of disease activity and progression. clinical and real-world evaluations of disease-modifying therapies (DMTs), as well as innovative symptomatic and rehabilitative strategies. Special attention will be given to studies addressing smouldering disease mechanisms, including the role of microglia, and to those examining clinical, radiological, and biochemical outcomes for the assessment of CNS compartmentalized inflammation. Authors are welcome to submit original articles, reports on novel treatment strategies and advances in decision making, clinical outcome studies, comparative studies, narrative reviews, scoping reviews and systematic reviews, and meta-analyses.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius

Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
