Special Issue

Current Trends in Breast Reconstructive Surgery

Message from the Guest Editor

I am pleased to announce a Special Issue of the journal *Medicina* titled "Current Trends in Breast Reconstructive Surgery", dedicated to exploring advancements and challenges in breast reconstruction techniques after surgery for breast cancer. Although the study of breast cancer and its surgical treatment have paved the way for numerous discoveries in the field of oncology, today there are still many emerging technical innovations in reconstructive fields. Indeed, the demand for breast reconstruction is growing and new techniques have been introduced to provide better cosmetic results and increase cancer safety. In a complex surgical procedure like breast reconstruction, the capacity to prevent postoperative complications by selecting the most-appropriate patient-tailored reconstructive technique would have significant implications for patient satisfaction. Submissions focusing on innovative approaches to improve surgical outcomes and minimize complication rates are called for. Moreover, papers on the evaluation of patient satisfaction, esthetic results, and quality of life following reconstruction are encouraged.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:
JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
