

Special Issue

Anesthesia and Analgesia in Surgical Practice: 2nd Edition

Message from the Guest Editors

We consider now an appropriate time to look back at the development of anesthesia and analgesia, an area as old as the history of medicine itself. This Special Issue will bring together various and wide-ranging topics with the aim of sharing knowledge and opinions from experts in the field. The results of original studies and reviews will be presented, with a focus on anesthesia and analgesia in surgical practice. This Special Issue will examine the techniques, technologies, and results of cutting-edge clinical, diagnostic, and therapeutic processes in the field of complications management after anesthesia. The editors invite contributions from recognized members of the anesthesia and analgesia community in the form of systematic reviews with or without meta-analysis, and observational or interventional original studies.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
