

Special Issue

Emerging Trends in Infectious Disease Prevention and Control

Message from the Guest Editors

This Special Issue highlights the importance of the future development of novel vaccine platforms, such as mRNA and viral vector vaccines, the use of phage therapy, possible alternative therapies, advancements in genomic surveillance and pathogen genomics, the role of artificial intelligence, machine learning, and digital health technologies, new approaches to antimicrobial stewardship and the development of alternative therapies, and the practical application of One Health approaches in medicine. We welcome the submission of original research articles, reviews, narrative reviews, scoping reviews, systematic reviews and meta-analyses that address the latest trends in infectious disease prevention and control within medicine.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
