Recent Advances in Pediatric Oral Health

Message from the Guest Editor

Pediatric oral health involves concepts, techniques and procedures not only from pediatric and general dentistry or other dental specialties, but also from other medical specialties. Those who care about pediatric oral health are required to treat a wide range of diseases in children, from infancy through adolescence, including persons with special healthcare needs. Children's dentistry is constantly evolving. In recent decades, there have been many advances and innovations in the field that encompass a variety of skills, disciplines, procedures and techniques. Hence, with the changing scope of practice it is imperative that clinicians stay up-to-date with the current evidence-based trends in practice and that they collaborate with other disciplines. For that reason, some areas this Special Issue seeks to address include, but are not limited to: behavioral guidance, caring for patients with medical and developmental disabilities, caries prevention, public health, sedation, pharmacological management and hospital dentistry, including other traditional fields of dentistry.

Guest Editor

Prof. Dr. Danko Bakarčić

Faculty of Dental Medicine, University of Rijeka, Rijeka, Croatia

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
