

Special Issue

Neuroinflammatory Disorders: New Insights and Future Directions

Message from the Guest Editors

This Special Issue will cover, but is not restricted to, topics such as multiple sclerosis, neuromyelitis optica spectrum disorders, myelitis, autoimmune encephalitis, immune-mediated movement disorders, vaccine-related neurological manifestations, and inflammatory polyneuropathies. A particularly interesting development is the evolution of diagnostic and treatment guidelines for conditions such as autoimmune encephalitis, which take into account the phenotypes of acute, short-term, and long-term sequelae. Moreover, interest in inflammatory sequelae of viral illnesses, such as SARS-CoV-2, has significantly increased, especially since the beginning of the COVID-19 pandemic and the recognition of the role of the Epstein–Barr virus in the pathophysiology of multiple sclerosis. Focuses on the pathophysiology, clinical presentation, including newly described clinical phenotypes, diagnostic biomarkers, and therapeutic management of inflammatory disorders that affect the central and peripheral nervous system. We will accept the submission of all types of articles (original research, reviews, communications, etc.) to this Special Issue.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
