Updates on Oral Surgery

Message from the Guest Editors

Oral surgery is undergoing significant transformations due to the integration of new technologies, advanced surgical techniques and innovative biomaterials. From minimally invasive procedures to digital planning and regenerative solutions, these advances are reshaping patient care, improving outcomes and expanding treatment options. This Special Issue of *Medicina*, entitled "Updates on Oral Surgery", aims to highlight the latest developments in the field. These include novel surgical approaches, state-of-the-art imaging and navigation systems, 3D printing applications and biomaterials for improved tissue regeneration. This issue also encompasses technological innovations such as artificial intelligence in diagnostics and robotic surgery, which are laying the foundation for precision-guided interventions. By bringing together research on these emerging trends, this Special Issue aims to provide a comprehensive resource for clinicians and researchers committed to the advancement of oral surgery. We invite contributions that address clinical applications, experimental studies and future directions in this dynamic and evolving specialty.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
