Advancements and Innovations in Dental Implantology

Message from the Guest Editors

We are pleased to announce that this Special Issue, *“Advancements and Innovations in Dental Implantology”*, is now open for submissions. In contemporary dental practice, we can no longer conceive of complete oral rehabilitation without the use of dental implants. Implantology has rapidly evolved and the results are spectacular. Clinical specialists have come to insert implants in areas where a few years ago we only dreamed about. These clinical achievements could not be achieved without the help of the researchers who thoroughly explored this field. This Special Issue aims to showcase original research and clinical studies that reflect the ongoing evolution of this field. We welcome contributions focused on, but not limited to, the following areas:

- Bone reconstruction and regenerative techniques.
- Guided surgery and digital implant planning.
- Immediate or delayed implant insertion.
- Short- and long-term clinical outcomes.
- Full-arch and single-tooth rehabilitations using implants.

We invite clinicians, researchers, and academics to share their latest findings and insights, and to help shape the future of dental implantology.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
