Advances in Gynecological Cancer Research: Emerging Technologies and Future Therapeutic Strategies

Message from the Guest Editors

This Special Issue focuses on the latest advancements in gynecological cancer research, highlighting cutting-edge developments in the field. We invite contributions that explore innovative surgical techniques, novel drug therapies, and the role of genomic profiling in personalized treatment approaches. Additionally, this issue will cover the integration of artificial intelligence (AI) and machine learning (ML) in improving diagnostic accuracy and treatment outcomes in gynecological oncology. By encompassing a wide range of topics, this Special Issue aims to present a comprehensive view of the future of gynecological cancer care.
