Current Trends in Otorhinolaryngology and Head and Neck Pathology

Message from the Guest Editors

Otorhinolaryngology and head and neck specialists worldwide face an increasing incidence and prevalence of various pathologies, some of the cases neglecting the evolution of their condition during the period of COVID-19 pandemics, and thus aggravating their evolution. We are pleased to invite you to contribute to this Special Issue with manuscripts reflecting current trends in ENT and HNS. We welcome original articles, but also reviews and selected rare case series to update the protocols of ENT and allied specialists worldwide during the aftermath of the COVID-19 pandemic. This Special Issue aims to refresh the knowledge on the numerous branches of pathology that contribute to the high complexity of our medical practice.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits
