

Special Issue

Sickle Cell Disease and the COVID-19 Pandemic

Message from the Guest Editor

The journal *Medicina* launched a Special Issue titled "Sickle Cell Disease and the COVID-19 Pandemic". Given the importance of the impact of COVID-19 on patients with SCD in the field of medicine and research, the journal *Medicina* is launching this Special Issue. We encourage you and your co-workers to submit your articles reporting on this topic. Reviews or original articles dealing with preventative measures, treatment strategies and outcomes, as well as articles providing insight on the challenges the COVID-19 pandemic posed on the overall care of these chronic patients, potential disruption in care delivery and innovative service adaptations are particularly welcome. In addition, we warmly invite you to submit articles highlighting lessons learned during this period that may be transferable and may lead to improved quality of care delivered to SCD patients outside the context of COVID-19.

Guest Editor

Dr. Dimitris A. Tsitsikas

Consultant Haematologist, Homerton University Hospital NHS Foundation Trust, London, UK

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania
