

Special Issue

Interventional Radiology and Imaging in Cancer Diagnosis

Message from the Guest Editors

Imaging and interventional radiology have taken on an increasingly critical role in oncology in recent years, with advances in diagnostic imaging, image-guided biopsies, and minimally invasive therapeutic procedures transforming the way cancer is detected, staged, and treated. This Special Issue of *Medicina* aims to highlight the latest developments and innovations in **cancer imaging and interventional radiology**, including their impact on early diagnosis, personalized treatment planning, and improved patient outcomes. We welcome submissions that explore a broad spectrum of topics, including, but not limited to, the following:

- Novel imaging techniques in cancer detection and staging;
- Image-guided biopsies and minimally invasive oncologic interventions;
- Functional and molecular imaging in oncology;
- The role of radiology in multidisciplinary cancer care;
- Technological advances in oncologic imaging;
- Radiologic–pathologic correlation in tumor diagnosis;
- Interventional radiology in palliative cancer care.

We welcome **original research, clinical studies, retrospective and prospective analyses, literature reviews, and opinion papers**, and both clinical and experimental contributions are encouraged.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
