Advances in Cardiac Interventions and Surgery in the COVID-19 Era

Message from the Guest Editor

The COVID-19 pandemic and the implemented countermeasures affected cardiovascular care at many levels. Pandemic countermeasures were heterogeneous, and their effect on cardiovascular care should be evaluated in the context of regional differences in healthcare systems. The purpose of this Special Issue is to encourage researchers, clinicians and administrators to share their latest research and most effective practices. Practices which remained effective after recovery may be of special interest. We invite authors to submit original research or review articles focusing on practices used to combat the effects of the COVID-19 pandemic and countermeasures on cardiovascular care and research. We are looking for submissions in the following areas:

- Interventional cardiology;
- Structural cardiology;
- Cardiac electrophysiology;
- Cardiovascular surgery;
- Cardiac critical/intensive care;
- Anesthesia during cardiovascular interventions;
- Ancillary services essential for cardiovascular interventions;
- Postgraduate education in cardiovascular disease.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
