Advances in Reconstructive and Plastic Surgery

Message from the Guest Editors

Reconstructive and Plastic Surgery is rapidly moving toward innovations such as 3D surgical planning, regenerative medicine, stem cell-based therapies, and the use of bioengineered tissues. Microsurgical supercomplex reconstructions, perforator flap advancements, and robotic-assisted surgery are redefining the boundaries of technical feasibility. Furthermore, new insights into wound healing biology, vascularized composite allotransplantation, and patient-reported outcome measures are reshaping how surgical success is defined and evaluated.

We invite original research articles and comprehensive reviews that reflect recent advancements and future perspectives in reconstructive and plastic surgery. Topics of interest include—but are not limited to—microsurgery, craniofacial reconstruction, breast reconstruction, wound healing and diabetic limb salvage, tissue engineering, surgical oncology reconstruction, aesthetic surgery innovations, and interdisciplinary collaborations. Contributions that present novel techniques, report meaningful clinical outcomes, or provide critical appraisals of emerging technologies are especially encouraged.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
