

Special Issue

New Insights into Cerebrovascular Disease

Message from the Guest Editor

This Special Issue seeks to consolidate recent advances in the field of cerebrovascular disease and offer new insights that can improve clinical outcomes. It invites both original research articles and comprehensive review papers that delve into the molecular, cellular, and physiological mechanisms that contribute to the development and progression of CVD. We particularly encourage contributions that explore cutting-edge areas of research, such as neurovascular coupling, endothelial dysfunction, and the role of neuroinflammation and immune responses in cerebrovascular pathology. Additionally, this Special Issue will feature studies on the latest advances in imaging technologies, including functional neuroimaging, advanced MRI techniques, and new methods for assessing blood–brain barrier permeability. Systematic reviews and meta-analyses that synthesize existing literature and provide evidence-based insights into the efficacy of treatments, diagnostic modalities, or intervention strategies are also invited.

Guest Editor

Dr. Carolina Peña-Martínez

Neurovascular Pathophysiology, Centro Nacional Investigaciones Cardiovasculares, Madrid, Spain

Deadline for manuscript submissions

16 February 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
