

## Special Issue

# Facial Plastic Surgery and Aesthetic Medicine: Challenges and Innovations

### Message from the Guest Editors

This Special Issue explores the latest developments and ongoing challenges in facial plastic surgery and aesthetic medicine. As patient expectations evolve and technologies such as AI, regenerative medicine, and 3D printing gain ground, the field continues to push the boundaries of form, function, and safety. We welcome original research, reviews, and expert perspectives on surgical innovations, non-invasive techniques, patient outcomes, and ethical considerations.

Dr. Bryan Lim

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.
