

Special Issue

Diagnosis and Treatment of Acute Pancreatitis

Message from the Guest Editors

This Special Issue aims to consolidate current knowledge and recent advancements in the diagnosis and treatment of acute pancreatitis. It will provide a platform for discussing innovative research, clinical practices and future directions in managing this disease and its complications. *Molecular Mechanisms and Biomarkers*: Analysis of the molecular pathways involved in the onset and progression of acute pancreatitis, and identification of potential novel biomarkers for prognosis. *Imaging Techniques*: Advances in imaging modalities such as endoscopic ultrasound (EUS), magnetic resonance imaging (MRI) and computed tomography (CT) that improve diagnosis and treatment. *Therapeutic Interventions*: Development and evaluation of endoscopic or minimally invasive procedures to improve patient treatment when intervention is required. *Gut Microbiota*: Investigating the role of gut microbiota in acute pancreatitis and potential therapeutic implications of microbiome modulation. *Artificial Intelligence and Machine Learning*: Utilization of AI and machine learning algorithms to predict disease severity, guide clinical decision-making and personalize treatment approaches.

Guest Editors

Dr. Manuela Mastronardi

Dr. Alan Biloslavo

Dr. Antonio La Greca

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
