

## Special Issue

# Emerging Trends in Immunodermatology and Autoimmune Skin Disorders

### Message from the Guest Editors

This Special Issue aims to highlight the most recent advances and future directions in immunodermatology, with a focus on autoimmune skin disorders in order to present novel findings, discuss emerging therapeutic approaches, and explore the immunopathological mechanisms underlying these conditions.

We are particularly interested in manuscripts that explore the following areas:

- The immunogenetics and molecular pathways involved in autoimmune skin diseases;
- Novel biomarkers for early diagnosis, prognosis, and treatment response;
- Innovations in targeted therapies and immunomodulatory approaches;
- The role of the skin microbiome and environmental triggers in disease pathogenesis;
- Systems biology, multi-omics, and artificial intelligence applications in immunodermatology;
- Insights from clinical trials and real-world evidence in the management of these disorders;
- Cutaneous autoimmune disorders and their clinical and systemic implications;
- The application of imaging techniques in the diagnostic process of autoimmune skin disorders.

We look forward to your contributions and to advancing the frontiers of this dynamic and impactful field.

---

### Guest Editors

Dr. Giovanni Damiani

Department of Biomedical, Surgical and Dental Sciences, Università Degli Studi di Milano, Via C. Belgioioso, 173-IRCCS Ospedale Galeazzi-Sant' Ambrogio, Milan, Italy

Dr. Magdalena Spałkowska

Department of Dermatology, Faculty of Medicine, Jagiellonian University Medical College, 31-501 Krakow, Poland

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
