Special Issue

Application of Endoscopy in Gastrointestinal Disease

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue on the application of endoscopy in gastrointestinal (GI) disease. Endoscopic procedures are fundamental tools in modern gastroenterology, providing unparalleled opportunities for early diagnosis, risk stratification, and targeted treatment. The ability to directly visualize the GI tract has transformed the management of diseases ranging from colorectal cancer to inflammatory bowel disease, polyps, bleeding lesions and submucosal tumours. The integration of high-definition imaging, advanced therapeutic techniques and artificial intelligence continues to improve diagnostic accuracy and clinical outcomes. This Special Issue aims to highlight recent advances and clinical applications of endoscopic techniques in the diagnosis and treatment of GI diseases. It aligns with the journal's scope by focusing on innovative diagnostic and therapeutic strategies in gastroenterology, hepatology and surgical endoscopy. The collection of papers will serve as a platform for interdisciplinary dialogue and contribute to evidence-based clinical practice.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius

Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
