Advances in Oral Health and Epidemiology

Message from the Guest Editors

Dentistry, a vital branch of medicine, encompasses the research, diagnosis, prevention, and treatment of disorders and conditions affecting the oral cavity. In recent years, the field of dentistry has seen ongoing enhancements in patient care delivery, with the introduction of new clinical practice guidelines.

However, the field requires continuous updates to incorporate emerging knowledge from allied specialties such as pharmacology, pathology, biomaterials, and cell tissue engineering. The primary objective of this edition is to offer a comprehensive overview of the latest ideas, opinions, developments, and key issues in dentistry on a global scale. Research topics may span from innovative procedures and protocols to advancements in technology and materials. Both prospective and retrospective research contributions are welcome, and we actively encourage the submission of review articles.

Guest Editors

Dr. Roberto Sacco

Dr. Sergio Olate

Dr. Carlos Fernando Mourão

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
