Rheumatoid Arthritis: Pathogenesis, Clinical Management, and Future Therapeutic Directions

Message from the Guest Editors

Rheumatoid arthritis (RA) is a chronic inflammatory autoimmune disease characterized by progressive synovial inflammation, joint destruction, extra-articular manifestations, and significant functional impairment. Although the development of advanced therapies has substantially improved clinical outcomes, major challenges remain in relation to fully elucidating disease mechanisms, optimizing management strategies, and innovating new therapeutic approaches. We welcome submissions of original research articles, comprehensive reviews, clinical investigations, translational studies, and perspective pieces. Manuscripts focusing on immunological pathways, genetic and environmental risk factors, novel biomarkers, precision medicine, and the development of biologic and targeted synthetic therapies are particularly encouraged. This Special Issue will provide meaningful insights for clinicians, researchers, and healthcare professionals, ultimately contributing to the advancement of RA care, improved patient outcomes, and the future of therapeutic innovation.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
