Advancements and Outcomes in Transcatheter Aortic Valve Implantation (TAVI)

Message from the Guest Editors

We are currently witnessing the third decade of transcatheter aortic valve implantation (TAVI), a well-established approach to treating aortic valve diseases, especially aortic valve stenosis. The number of TAVI patients is growing rapidly, and its indications are expanding. Thus, it is essential that we enrich our knowledge in this field by collecting further data and outcomes. This Special Issue will present the latest advancements in all aspects of TAVI, including clinical outcomes, new techniques, new devices, and comparisons with other approaches. Current cutting-edge research focuses on indications, new devices, new methods, advancements in transcatheter interventions in aortic valve insufficiency or endocarditis, and re-interventions and probable complications. We welcome the submission of original articles, reports on novel treatment strategies and advances in decision making, clinical outcome studies, comparative studies, narrative reviews, scoping reviews, and systematic reviews and meta-analyses.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
