

Special Issue

Clinical Applications of Modern Technologies in Neurosurgery and Spine Surgery

Message from the Guest Editors

In this Special Issue of *Medicina*, we aim to publish articles on clinical applications of modern technologies in neurosurgery and spine surgery in as broad a context as possible to provide the readers with a comprehensive overview of the latest developments. Clinical, neuroradiological, as well as experimental, basic science research, in respect of clinical applications of modern technologies in neurosurgery and spine surgery, is welcome. Papers on preoperative imaging, new and innovative surgical approaches and techniques, as well as application of various novel technologies, devices, as well as surgical concepts are of interest.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania
