## Translational Advances in Gynecologic Cancers

### Message from the Guest Editors

Recent advances in molecular biology, genomics, and targeted therapeutics have significantly transformed the landscape of gynecologic cancer care. Translational research serves as a vital bridge between basic science and clinical application, enabling new discoveries to be effectively integrated into diagnosis, treatment, and patient outcomes. This Special Issue aims to highlight cutting-edge research that contributes to improved understanding, early detection, prognostic stratification, and precision medicine approaches in the management of cervical, endometrial, ovarian, vulvar, and vaginal cancers. We welcome original research articles, reviews, and clinical studies related to molecular mechanisms, biomarker discovery, immunotherapy, radiogenomics, drug development, and translational clinical trials. Contributions that explore innovations in surgical techniques, imaging, artificial intelligence applications, and multidisciplinary care models are also encouraged. This Special Issue provides a platform for clinicians, researchers, and academicians to share insight and evidence that will shape the future of gynecologic oncology,

### Guest Editors

Dr. Prapaporn Suprasert

Department of Obstetrics and Gynecology, Faculty of Medicine, Chiang Mai University, Chiang Mai, Thailand

Dr. Chalong Cheewakriangkrai

Department of Obstetrics and Gynecology, Division of Gynecologic Oncology, Faculty of Medicine, Chiang Mai University, Chiang Mai 50200, Thailand

### Deadline for manuscript submissions

25 April 2026

# About the Journal

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

## Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas, Lithuania

## Author Benefits

**Open Access:**
free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:**
indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

**Journal Rank:**
JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
