Modern Trends in Obstetrics and Gynecology

Message from the Guest Editor

Obstetrics and gynecology is the primary medical specialty that holistically cares for women's health. Obstetrics is largely focused on pregnancy, childbirth, and the postpartum period. On the other hand, gynecology is largely focused on the health of the female reproductive system, most importantly uterus, ovaries, and breasts to some extent. Approximately half of the world's population is women, and this population requires excellence in care, represented by improvement in quality of life and reductions in morbidity and mortality. It is very important that efforts geared toward improving women's health should not only be looked at from the angle of absence of disease. Rather, it should be broadly expanded to encompass care of social, sexual, physical, and nutritional aspects, as well. Frequent obstetric problems comprise high-risk obstetric labor, induction of labor, preterm labor, miscarriage, abortion, and peripartum infections, to name a few. On the other hand, common gynecological problems include menstrual disorders, pelvic floor prolapse, pelvic pain, postmenopausal symptoms, infertility, and tumors.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
