

Special Issue

Advances in Nursing: Critical Care and Chronic Illness

Message from the Guest Editor

This Special Issue will focus on the latest advances in nursing for critical care and chronic illness. We invite contributions that explore innovative interventions in intensive and acute care environments, strategies to optimize patient outcomes and safety, and approaches to facilitate post-ICU recovery and long-term management of chronic conditions. By integrating research evidence, clinical insights, and interdisciplinary perspectives, this Special Issue aims to emphasize the pivotal role of nursing in improving both immediate and long-term outcomes for patients throughout the trajectory of critical illness.

Topics of interest for publication include, but are not limited to, the following:

Innovative nursing interventions in high-acuity and intensive care settings;

Advanced critical care nursing practices and decision-making;

Nursing approaches to long-term physical, cognitive, and psychological recovery;

Evidence-based strategies for optimizing patient outcomes and safety;

Management of chronic illness in survivors of critical illness;

Interdisciplinary and integrated care models in critical and chronic care nursing.

Guest Editor

Dr. Francesco Gravante

Intensive Care Unit, Department of Critical Care, Local Health Authority of Caserta, 81100 Caserta, Italy

Deadline for manuscript submissions

28 February 2027

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
