Clinical Diagnosis and Management of Cardiovascular Disease

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue, entitled “Clinical Diagnosis and Management of Cardiovascular Disease”, which seeks to highlight the latest advances in diagnostic techniques, risk stratification, and therapeutic strategies across the spectrum of CVD and its related comorbidities.

We welcome original research articles and reviews that explore innovative imaging modalities, biomarker discovery, personalized medicine, and evidence-based interventions for both acute and chronic CVD. Emphasis will also be placed on the integration of multidisciplinary approaches that enhance diagnostic accuracy and treatment outcomes into clinical workflows. Additionally, studies focusing on preventive cardiology and real-world clinical applications are highly encouraged. By bringing together research from clinicians, scientists, and healthcare professionals, this Special Issue seeks to foster a comprehensive understanding of current challenges and future directions in the diagnosis and management of CVD.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
