

Special Issue

New Advances in Mitral Valve Diseases Management

Message from the Guest Editors

Mitral valve disease, the focus of this Special Issue, is one of the most common valve disorders and carries a significant burden in terms of mortality and morbidity. This Special Issue will focus on innovative and out-of-the-box research on mitral valve disease management as well as ground-breaking points of view regarding topics that are yet to be consolidated. We are pleased to invite colleagues to submit their original research on the topics listed below:

- New elements and tools in diagnosis of mitral valve diseases;
- Prognostic scores and biomarkers;
- Preoperative optimization (analgesia, medications, multiorgan function, blood management, functional status, nutrition);
- Minimally invasive mitral valve surgery;
- Trans-catheter mitral valve repair/replacement;
- ERACS and anesthetic choices;
- Rehabilitation.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
