

Special Issue

Latest Advances in Pancreatobiliary Endoscopy

Message from the Guest Editors

[*] Background and history of this topic: In recent years, the clinical applications of endoscopic retrograde cholangiopancreatography (ERCP) and endoscopic ultrasound (EUS) have become increasingly involved in everyday practice, and the endoscopists' armamentarium is rapidly expanding due to endoscopic procedures becoming more complex and interventional, with a higher chance of dealing with different benign and malignant biliopancreatic conditions with a minimally invasive approach. In particular, EUS technology has progressed substantially, moving from a supplementary diagnostic add-on to a key modality in both the diagnosis and treatment of a wide range of disorders. [*] Aim and scope of the Special Issue: Given the complexity of this topic and its impact on clinical practice and public health, *Medicina* is launching a Special Issue entitled "Latest Advances in Pancreatobiliary Endoscopy" with the aim of gathering accurate and up-to-date scientific information on all aspects of the endoscopic management of benign and malignant conditions. [*] What kind of papers we are soliciting: narrative and systematic reviews, original manuscripts.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
