Cardiac Magnetic Resonance

Message from the Guest Editors

Cardiac Magnetic Resonance (CMR) plays a unique and evolving role in clinical practice. It can reliably provide useful data for diagnosing and evaluating congenital heart disease, myocardial perfusion, myocardial/pericardial tissue characterization, and valvular heart disease with conventional and novel sequences. We are delighted to introduce a new Special Issue focusing solely on Cardiovascular Magnetic Resonance. In this issue, we will consider articles across a wide spectrum of related areas, ranging from technical studies, study protocols, review articles, meta-analyses, research articles (including observation and randomized), and case reports. These could be in any area of CMR, including basic science, physics, and clinical work.

Guest Editors

Prof. Dr. Vassilios S. Vassiliou

Norwich Medical School, University of East Anglia, Norwich, UK

Dr. George Bazoukis

1. Department of Cardiology, Larnaca General Hospital, Larnaca, Cyprus

2. Medical School, University of Nicosia, Nicosia, Cyprus

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
