Case-Based Reviews in COPD

Message from the Guest Editor

Chronic obstructive pulmonary disease (COPD) is a highly prevalent condition responsible for an enormous amount of mortality, morbidity, and cost. New approaches and data in recent years have refined the clinician's approach to caring for patients suffering from COPD. In this Special Issue, we seek to provide a series of clinically pertinent reviews in COPD intended to address controversies and recent advances in COPD using a format that engages readers by framing reviews around realistic clinical scenarios.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
