

Special Issue

New Technologies and Tools for Diagnosing and Monitoring Movement Disorders

Message from the Guest Editors

Dear colleagues, This Special Issue aims to collect a series of articles specifically related to the use of new tools or devices to identify novel trial endpoints or outcome measures that can help early diagnosis, disease monitoring, or a new insight into the pathophysiology of movement disorders. We are interested in original research, pilot studies, and systematic reviews or meta-analyses, providing new insights into the use of novel techniques for evaluating patients with movement disorders. In particular, we will consider studies reporting discoveries on pathophysiology, progression, impact on patients' functionality, and novel therapeutic approaches for Parkinson's disease, parkinsonism, tremor, dystonia, ataxia, or other movement disorders. We are also interested in reviews providing information on the state of the art, ongoing research, and future perspectives in the field.

- Parkinson's disease
- tremor
- dystonia
- parkinsonism
- ataxia
- technology
- mHealth
- device
- neuroimaging
- neurophysiology
- biomarkers

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
