

Special Issue

Epidemiology of Autoimmune and Metabolic Diseases

Message from the Guest Editors

This Special Issue will highlight the continuous changes in the incidence along with new approaches in the treatment and management of autoimmune and metabolic diseases.

We are collecting studies on autoimmune disease associations, metabolic disorders, and complications of autoimmune diseases. Also, studies on metabolic diseases (inherited or developed) are encouraged (including studies on inflammatory syndrome). The rare disease topic should cover autoimmune or metabolic disorders (including genetic research). Submissions on the associations of medical specialties and common approaches are encouraged. Medical or surgical overviews (including inter-specialty) reviews and meta-analysis are welcome.

In addition, submissions on quality of life, along with patient care systems and patient registries, will be considered for publication in this Special Issue.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius

Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
