Special Issue

Nursing and Allied Health Professional Focused Research on Enhanced Recovery after Surgery (ERAS)

Message from the Guest Editors

Enhanced Recovery After Surgery (ERAS) is a multimodal, multidisciplinary approach to the care of the surgical patient. ERAS process implementation involves a multi-disciplinary team effort. This Special Issue aims to gather submissions that highlight the innovative work undertaken by nurses and allied health professionals within ERAS pathways across all surgical specialties.We welcome research led by or involving nurses, operating department practitioners, physiotherapists, occupational therapists, dieticians, pharmacists, radiographers, healthcare assistants, or any other non-medical professional involved in ERAS. Research from work conducted at the pre-operative, intra-operative, post-operative, and post-discharge stage is welcome.

Guest Editors

Prof. Dr. Thomas W. Wainwright

Dr. David McDonald

Dr. Fiona J.C. Carter

Ms. Angie Balfour

Deadline for manuscript submissions

closed (31 August 2021)
