Advances in Clinical Medicine and Dentistry

Message from the Guest Editors

The involvement of biomarkers in predictive modeling and their inclusion in the risk assessment of clinical events has seen significant development in recent years. These aspects are essential for personalized medicine, allowing for tailored approaches to disease prevention, diagnosis, treatment and monitoring. This Special Issue aims to collect papers that highlight the use of biomarkers in preventive, diagnostic, therapeutic and prognostic medicine. We also focus our attention on the involvement of biomarkers in public health and their current use in clinical practice. Biomarker discovery and validation are of particular interest for the advancement of personalized medicine. Analytical techniques are available to quantify the added value of biomarkers, highlighting both their strengths and limitations. While some biomarkers may be relevant to both clinical medicine and dentistry, dentistry has its own unique set of biomarkers that are relevant to oral health, diagnosis and management of dental conditions. In the future, preventive and predictive biomarkers will play a key role in healthcare.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Medicina* (ISSN: 1648-9144). *Medicina* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on medicine. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Edgaras Stankevičius
Medical Academy, Lithuanian University of Health Sciences, Kaunas,
Lithuania

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
